The Indoor Plumbing Rehabilitation (IPR) program provides zero percent interest, forgivable loans in eligible localities for the installation of indoor plumbing to owners of substandard housing where indoor plumbing does not exist, or where the existing water delivery or waste disposal systems have failed. Loan repayments are determined by the homeowner's ability to make payments. Program is designed to install running water, sewage, bathrooms and/or kitchens.

The program also provides for the general rehabilitation of these units, and for accessibility improvements to units occupied by persons with disabilities or where overcrowded conditions exist. The Virginia Department of Housing and Community Development contracts with local governments, nonprofit housing providers and housing authorities to administer the IRP program.

CommonHelp is the Commonwealth of Virginia's fast and easy way to apply online for many Virginia social services assistance programs. Through a single online site, you can find out what assistance you might be eligible for and submit one application saving you time and effort. Visit [CommonHelp link](#)
