ElderTree offers a consulting service to help you understand your needs and the needs of your family. Care managers can

- help families understand the challenges facing their aging family members.
- help facilitate difficult discussions such as driving, independent living safety versus quality of life concerns, and crisis intervention.
- help families identify eldercare specialists for legal, financial, and medical questions.

If your loved one has an urgent matter, ElderTree can help. If a client faces an emergency room visit, a care manager is available to accompany the client 24 hours a day, 7 days a week.
