The Geriatric Assessment Center provides comprehensive assessment, and evaluation of older adults including memory loss, depression, anxiety, fall risk, driving safety, mobility, etc.

What happens in a Geriatric Assessment?

- Geriatrician evaluation concentrating on memory loss;
- Recommend strategies for families and caregivers to deal with memory loss issues;
- Medication review;
- Referral to community resources for continued support.

A series of referrals are then made to community resources. Call for more information.
