Virginia Regional Transit (VRT) provides demand response service throughout each of its regions where fixed routes are not available. Demand response service provides travel assistance from a resident's home to locations within VRT's regions for medical appointments, shopping, and other basic needs destinations.

Where VRT provides only Demand Response service, it will be open to all passengers regardless of whether they have an Americans with Disabilities (ADA) Certification or not.

Citizens who live within a 3/4 mile of a fixed route are asked to board the bus along the fixed route. For citizens who are ADA Certified, every effort will be made to schedule deviations from the fixed route for them.

Service Area(s)
