At Sheltering Arms, our physical therapists can perform a comprehensive evaluation to help you pinpoint the underlying causes of your dizziness or balance disorder. We use state-of-the-art equipment for assessment and treatment of balance, including goggles with infrared technology and dynamic posturography testing. Many of our therapists also have specialty certification in vestibular rehabilitation.

Our SMART Balance Master® interactive technology allows your therapist to control the surface where you stand, as well as your visual environment, during therapy sessions to systematically evaluate and address each component of your balance and control. Memberships to the Sheltering Arms fitness centers and warm water therapeutic pool are open to everyone in the community and are a wonderful way to

improve strength and flexibility to help reduce the risk of a fall.
