In partnership with Rappahannock-Rapidan Regional Commission (RRRC) and Encompass Community Supports, the Regional Transportation Collaborative (RTC), Mobility Center offers a single phone line providing all transportation information and referral in the region. Services include:

- Coordination of volunteer ride requests and/or referrals to volunteer transportation programs.
- Coordination of paid ride programs.
- Coordination of gas card supplements/scholarship programs,
- Central data collection point for all mobility in the region.

Mobility Coordinators answer calls and also return messages using this process:

- Coordinators collect demographic, planning, and transportation-related data for each caller.

- Callers provide the reason and needs including to and from and desired travel dates/times, and any special factors.
- Coordinators match transportation needs with existing resources in the region - working in a non-competitive filter model - matching up needs first with any available public transportation, then volunteer driver programs, paid programs, and finally gas resources.
