Griswold Home Care NoVA West assists seniors, adults living with chronic illnesses, and those recovering from illness or surgery by providing personal care and companionship support. Under the supervision of a registered nurse, their private duty caregivers care for people in private homes and provide supplemental help in skilled nursing and assisted living facilities.

Griswold Home Care's professional caregivers assist with Activities of Daily Living such as eating, bathing, personal hygiene, dressing, and toileting; as well as Instrumental Activities of Daily Living such as meal preparation, light housecleaning, laundry, and running errands. Caregivers also provide companionship and mental stimulation by engaging their clients in conversation and other interests. As an additional set of "eye and ears" for families, they help to ensure their client's safety by recognizing and alerting family members to potential signs of declining health and dangerous falls.
