English

Habitat for Humanity can help older adults who want to age at home by providing repairs on their home. Repairs can include installing level door handles, ramps, rails and raised toilets to make the home more accessible.

A construction specialist will conduct a home repair evaluation so modifications are specific to each homeowner.

Habitat for Humanity collaborates with human services organizations in the area to evaluate individual needs and provide critical home repairs, modifications and community services specific to each homeowner's lifestyle to preserve their home and their independence.

Service Area(s)

Louisa County
